

ANGLE-EASE™

Adjustable HVE Tips

Angle-Ease Adjustable HVE Tips maximize operator comfort, visibility, suction efficiency.

Try the revolutionary new HVE tip designed to make your life easier! Our exclusive Angle-Ease Adjustable HVE Tip has 12 locking angle adjustment positions, allowing it to meet every treatment and operator requirement.

- Superior Ergonomics and Operator Comfort—adjusts from a straight bayonet position to a 90° angle to easily reach any quadrant. Lowers fatigue and eases strain on the wrist by reducing hose tension and drag.
- Improved Visibility—offset approach keeps hands clear of the working field.
- Increased Efficiency—allows hose to slope downward from the valve for maximum suction efficiency.
- Full Retraction—rigid construction retracts cheeks just like standard tips.
- Reversible Design—accommodates either right or left-sided assisting.

Fits all standard HVE valves. Single-use white plastic construction. Patent pending.

50 tips per package.
