

# ECOTip™

## Earth-Friendly HVE Tips

Made from renewable, sustainable resources, ECOTip is the world's first and only earth-friendly HVE tip.

*Patients will appreciate your commitment to the environment. Using ECOTip can help keep millions of plastic suction tips out of landfills each year!*

ECOTip Earth-Friendly High Volume Evacuator Tips are made from renewable, sustainable paper. ECOTip is brilliantly engineered and tested to provide outstanding stiffness, durability and function. Its food-grade coating virtually eliminates moisture absorption and fraying during use.

Non-vented. Fits all standard HVE valves.  
FDA-approved materials. 100 tips per bag.
