

GLECO TRAP® SYSTEM (19 oz.)

Sink Trap

Rescue lost instruments, burs, crowns and more—without need for tools!

Invented by a plumber, the Gleco Trap brings innovation to the age-old chore of sink trap retrieval.

Install a compact 19 oz. Gleco Trap System in each operatory and never lose another crown, file or bur down the sink again. The 19 oz. size refill saves undersink space. Each system includes one trap assembly, two 19 oz. size replacement bottles, drain-off bottle and all necessary 1½" pipe components.
