

ND-X 1000

Magnifying Safety Glasses

Safety glasses with built-in 'bifocal' magnification.

Gain the proven advantages of magnified vision without the inconvenience and expense of a separate loupe attachment.

ND-X 1000 Magnifying Safety Glasses are the first safety glasses with "reading style" magnification built into the lens. One-piece polycarbonate bifocal lens with integrated side shields is scratch-resistant and ANSI certified. Lightweight black nylon frame with fully adjustable temples ensures a perfect fit.

Available in four long-range depth-of-field magnification powers: 1.5X, 2.0X, 2.5X, 3.0X. Specify power when ordering. One pair of glasses per package.
